PROFILE

Computer Science and Telecommunications student with a strong educational background in programming, computer systems, networking, and the use of major digital technologies. Skilled in logical thinking, problem solving, and hands-on laboratory work. Passionate about software development and robotics.

LANGUAGES

- Italiano: Native
- Inglese: C1
- tedesco: B1

EDUCATION

Diploma in CS and Telecommunications

IISS Galileo Galilei

2022 - in corso

Computer science-oriented academic background, with solid skills in programming, computer systems, networking, and the use of key digital technologies. Strong development of logical thinking, problem-solving abilities, and practical laboratory experience.

EXTRACURRICULAR ACTIVITIES

● Fabrizio Rocca Award

2025

Winner of a competition for the development of MoveGreen, a community-focused app created in collaboration with a friend and teammate and presented through a video. This experience strengthened skills in programming, project design, problem solving, and creativity.

● Italian National Robotics Competition

2024

Team captain at the Italian National Robotics Competition, responsible for team coordination and project development. Result: 7th place out of more than 60 teams nationwide. This experience enhanced teamwork, leadership, and problem-solving skills.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React Native
- **Backend:** Python, FastAPI, MySQL, Postgresql
- **General Programming:** C++, Java
- **Hardware:** Arduino, ESP32, Raspberry
- **Game & Simulation Development:** Unreal Engine
- **Design & CAD:** Figma, Fusion 360, AutoCAD
- **Other Software:** Microsoft Office, DaVinci Resolve

SOFT SKILLS

- Leadership and team coordination
- Problem solving and logical thinking
- Teamwork and collaboration
- Creativity and innovation
- Communication and presentation skills
